Number: 729

Age: 10 Years (DoB 8/1/2013 est.) **Sex:** Male

Coat: Grey and White

Eyes: Brown eyes

Intake: 12/3/2022

Kohana is a handsome, senior boy at 10 years old. He came in as an owner surrender due to the owner becoming disabled and had to move in with her daughter who had other dogs that didn't get along with him.

Kohana is a big boy at around 100 lbs. and sweet with adults. Particularly with females, he loves to sit on you. Unfortunately, he does not like kids and will bark at them. He'll give you a nudge with his head and paw at you when he wants attention. Out of character for most Huskies, if someone comes to the door or approaches the car while he is in it he will get excited and bark.

He walks well on a leash and can walk with multiple dogs. He gets along with other dogs and will engage in playing with them. He does well in a car and likes to go for rides.

This boy has storm anxiety as many dogs do. He loves to be brushed and get belly rubs. He's very food driven, and food needs to be kept off counters and trashcans need to be stored in pantries or inside a cabinet. Of note, he's used to being with other dogs but he can be possessive of his humans and would do very well as the only dog, too.

Kohana is healthy, Heartworm negative, housetrained, up to date on his shots and neutered. This is a sweet, lovable older boy who deserves a forever home for his remaining years. Fill out an adoption application on our website, www.siberrescue.com, today.
