Number: 712

Age: 3 Years (DoB 1//2016 est.) **Sex:** Male

Coat: Light Red and White Piebald

Eyes: Blue

Intake: 12/9/2019

Meet Skye, a frisky, energetic male about 3 years old, just entering his adulthood. He was found as a stray and was nothing but fur, skin, and bones; very underweight. There is no surprise that he has a voracious appetite given how thin and underweight he was. Now that he is getting regular meals he is filling out to a healthy weight and has adjusted to a normal feeding schedule.

Skye is extremely friendly and eagerly greets new people. He loves playing with other dogs; he and his foster sister play until they both are at the point of exhaustion. This boy enjoys car rides, travels well and walks easily on a leash.

He is quite loving, seeking the attention that he hasn't had in some time. He is not yet housebroken but his foster parents are working on that. We expect he will catch on quickly, learning from his foster sister. In the meantime, he is getting used to the crate when left alone until he is fully housebroken.

Other than being underweight, Skye is healthy, Heartworm negative, neutered, up to date on vaccines, and microchipped. This handsome boy will settle right in to a loving, forever home and catch the eye of the neighbors every time you walk him. Give him the life he deserves but has been denied so far, fill out an adoption application on our website, www.siberrescue.com, today.
